Last month we asked you to pray for a great harvest in Ministry of Mercy's farms. God is answering. MoM is growing beans in six fields totalling about 20 hectares. That's 49.5 hand-worked acres! Daniel Edeh estimates they may harvest up to 1,000 kg of beans. That's 2200 pounds, over a ton! This great amount will not last until the next bean harvest. They will need to buy more beans before the next crop is ready.

Hand-tilled, hand picked food

Packing the beans for market

Thank the Lord with us for Ministry of Mercy Medical Centre (MoMMC). Recently a Muslim woman came to the Medical Centre for help. Her triplets were intertwined in the womb in a way that would have prevented a natural birth, and she did not have money for a C-Section. The wonderful staff at MoMMC safely delivered the triplets by C-Section free of charge, and shared the love of Christ with the woman in word and deed.

Thank you so much for your prayers and support. What would we do without you? We pray that the Lord will meet all your needs, and give you great joy in your service to Him.
 With love and prayers,
 Esther Nordman
 For Ministry of Mercy

Triplets due

Joy over lives saved

The triplets, alive and well
