

April 2024

Have you ever experienced an amazing coincidence? We have! Too many of them to think of them as random chance—we know that God orchestrates things to fulfill His purposes, so we like to call them God-instances instead of coincidences :)

Through a series of these God-instances, we were introduced to the wonderful work of MeCAHT (Media Coalition and Awareness to Halt Trafficking) and their residential and after-care services for rescued trafficking victims here in Abuja. In April, we had the privilege of hosting a small group from MeCAHT at one of our 3-day trainings.

Trafficking victims are another highly vulnerable group that often does not have much access to resources or land. The pfumvudza model is perfect for them because it provides a way to feed oneself on just a 17 m x 40 m piece of land. “I would like to say that the training brought hope to me personally. We have been buying corn to feed our girls, but with this, I think it's very easy for us to cultivate enough to feed [them] with just a little portion of land.” Just 3 hours after the training ended, they were already gathering materials for their compost pile!

Teaching them how God can help us redeem the destroyed soil gives us the opportunity to share with them how He can also redeem their own stories of brokenness and pain.
