

# Course summary in Boruca—08/2021

Gaining knowledge and seeing growth in people is one of the greatest gifts we can get through education.

Through each course we offer, we are adding not only knowledge to the students, we are also growing in confidence and this gives us more opportunity to personally know each student. Sometimes they approach us sharing personal situations, which offers us opportunities to give them advice in the light of the Word of the Lord.

## Pastry course

Yorlenny's pastry course is going well. She has currently taught the course three times. It is impressive to see how each student shows what he has learned by putting it into practice in his community. The only male student in this course, William, has done very well. He is using what he learned to provide for his family. In the August course, he showed us with great joy the oven that he could buy to continue selling his products. The atmosphere in the classroom becomes a time of joy, where we can share biblical teachings in addition to pastry-making. God Himself is working in every heart.

## Testimony

Patricia one of our students, participated the first day of the course, but the second day her daughter was a little sick. She believed God for a miracle and her daughter recovered, and by the third day Patricia as we call her was back in the course with a lot of energy and enthusiasm to learn. We give glory to God.

**2 Peter 3:18**

***Instead, grow in the grace and knowledge of our Lord and Savior Jesus Christ. To him be all glory now and forever! Love.***

This is Denia. Her attitude toward the course impressed. Now she is selling the pastries she makes and is saving for an electric oven to be able to make her bread better. For now, she is baking on a stove.

## Theological Foundations Course

On this trip we had the opportunity to teach the biblical counseling course. Our teacher Teresita Murillo who taught the course communicated very well with the students. It was very practical, and we obtained good results.

Each course we teach is a great challenge for the student. As we shared a few months ago, four students are in their 60's. We also have one student who is learning to read and write using the Bible. And the only man who takes the course walks two hours, leaving at home his wife and child who has mental limitations making it difficult for them to join him on the trail.

Seeing each of them doing their best and showing their passion for learning, we are increasingly encouraged to continue training and providing a better quality of study for them.

## A new step

Our student Guiselle from the Boruca community, daughter of Pastor Domingo, who pastors the church where we are teaching the course, has been very interested in working with the program that we teach in each ethnic group. We have decided to bring her in as a teacher, incorporating this course into a cross-cultural course for an intensive month, that we will teach under the auspices of OM in Costa Rica.
