

Things are moving! As many of you know, we have been working hard to raise the funds needed to build the security wall for our project site. Even though we're only a little over halfway to our goal, God has been refining our direction and opening doors for us to begin vocational trainings in agriculture by the end of this year! So we are trusting Him and stepping out in faith—knowing that He will provide the resources for His work.

The shipping container you see on the front of this postcard is the first step of faith. In late July, we were finally able to purchase the container and move it to the project site. This will be the securable storage facility for the cement, rods, and poles we will need to have on-site to start building the wall. We already have the rods and poles, and we are working now to make connections to purchase the cement. We plan to commence work on the wall as soon as the rains end in a few months - our second step of faith.

This is a very exciting development for us, as we are moving closer to being able to start the full training programs we have been envisioning for so long! We ask you to pray along with us for the remainder of the funds to come in for the project, for the safety of the local workers who will be building the wall, and for the training programs to reach hearts for Jesus.

from **Faith's Heart**

“Now to Him who is able to do immeasurably more than all we ask or imagine, according to His power that is at work within us, to Him be glory... forever and ever. Amen!”

~Ephesians 3:20-21

If you would like to help us fully fund the wall project, send donations to:
