

June 2024

One of the joys of doing what we do is being able to impact the youth of Nigeria and teach them the value of hard work and how to appreciate the bountiful blessings of God’s creation. We want them to grow up as good stewards of all He has given us, and to be able to see how He reveals Himself to us through all He has created.

We also desire to show them how they can feed themselves and their families through the work of their hands to keep them from falling into the alluring trap of the world of internet scams and other destructive short cuts to wealth that is so prevalent among the youth of Nigeria today and to break the cycle of dependency on handouts to make it from one day to the next.

Riding out to the farm on the back of a truck adds to the fun of the experience for kids, as seen on one of our recent farming trips to the village. Please pray that relationships will be built and foundations laid in their hearts—foundations of faith and faithfulness. As the scriptures tell us, exploring and experiencing God’s creation is a big part of knowing and understanding who He is and how much He loves us!

from

“For His invisible attributes, that is, His eternal power and divine nature, have been clearly seen since the creation of the world, being understood through what he has made. As a result, people are without excuse.” ~Romans 1:20
