

March 2024

We had a need, and our community (YOU!) responded in a big way. With our agricultural trainings and farming programs taking off, and our preparations for getting started on the fence and building a training hall at our project site, the need for a pickup truck was becoming more and more obvious, but it wasn't in the budget. What a blessing that within a month, you all had helped us to raise the necessary funds, and after another month and a half of searching high and low for just the right vehicle (and making sure the VINs didn't show a junk title), and waiting for all of the paperwork to be completed, we finally have our work truck—a 2010 Tacoma! While we still have a little work to do on it to get it in A+ shape, the engine is strong, and the truck has already made several long-distance test trips successfully.

We have so many things we are going to be depending on this truck for in the coming months—from hauling compost and construction materials to transporting farm workers and assisting the IDP camp. Continue to pray that we'll be able to get all of the minor tune-ups done quickly and affordably, and that it would serve us well for a very long time. Pray that we will be faithful stewards of this blessing. Thank you all so much for your faithful support and prayers for our ministry. We couldn't do it without you!
